## OPERATIONS

Quarry | Crush | Haul

# Our Story

**QVC OPERATIONS** offers sustainable specialist services in quarrying, crushing and haulage operations throughout Central Queensland.

Our fleet of heavy-duty trucks and quarrying equipment, combined with our expert and experienced team, offers your project a quality solution. We are proudly local, employing locals and supporting the community.

QVC Operations offers project solutions. We tailor our services to meet our clients' requirements, ensuring cost and time efficiencies.

**QVC Operations also provides consultancy services, specifically:**

**Sustainable Quarry Operations**

**Crushing & Screening**

**Material Haulage**

**Machinery Hire**

# Why us

**Our 'Home Base' is conveniently located at Fairy Bower, adjacent to the Rockhampton Ring Road and approximately 10 km from the Rockhampton CBD.**

**QVC Operations provides reliable, high-capacity contract crushing services for various industries, including major projects, construction, mining, recycling, and more.**

Our team has quality equipment and expertise to deliver efficient, on-site material processing, helping you save on time, costs, and transportation.

QVC Operations is your top choice for all quarrying material needs. Commencing operations in 2020 with a commitment to quality and customer satisfaction, we are proud to be a leading supplier in the industry to a growing clientele and some of the region's notable infrastructure and maintenance projects.

We understand the importance of dependability and consistent, high-quality materials for any construction project. Irrespective of the industry (e.g. construction, industrials, mining or real estate/residential), we are here to provide your project with the finest sand and quarry products that will exceed expectations.

We ensure that our mining practices are sustainable and environmentally responsible, minimising any negative impact on the surrounding ecosystem. This commitment to ethical and accountable practices sets us apart from others in the industry.

QVC Operations boasts extensive experience in providing services and equipment across a diverse range of industries, including renewable energy projects (wind and solar farms), major regional infrastructure, defense, and quarrying. Our expertise also extends to the mining sector, where we manage projects focused on the crushing and screening of coal and other minerals, ensuring strict compliance with safety standards while maximising throughput. This multifaceted experience positions QVC Operations as an industry leader, equipped to tackle complex challenges and deliver exceptional results.

# Our Products & Services

At QVC OPERATIONS, we offer many options to suit your specific requirements. We are client-focused and produce material our customers require for their projects.

**Our Class A1 Fill material is renowned for its quality and consistency.**

We only use experienced and professional, NATA-accredited geotechnical experts. We guarantee our products meet or exceed our clients' specific requirements.

Contact us today to discuss your required specifications.

# The QVC Leadership Team

## Brett & Christine Lewis (Owners/Directors)

Central Queensland locals Brett and Christine from the Banana and Rockhampton region come from a coal mining background. Brett was a dragline operator for 20 years and established a reputation as a leader in his field across several coal mines throughout the Bowen Basin. Christine is a qualified lawyer who worked on the commercial team for Tier 1 world-class mining companies.

Through dedication and hard work, Brett and Christine have grown the QVC Group of businesses to encompass QVC Operations, Rockhampton Sands, Quattro Hire and Bolt Off Solutions (Industrial Lubricants).

Brett and Christine are passionate locals residing in Rockhampton with their two daughters.

## Graham Sheppard (General Manager – QVC Group)

Graham joined the QVC team in late 2023. After meeting Brett and Christine early in the development of Rockhampton Sands, Graham watched closely as their businesses grew from strength to strength and now proudly joins the management team in leading the sustainable growth of the entities. Graham comes from senior management and project management roles in economic development for local government and civil construction companies. Graham prides himself in delivering projects efficiently on time while maintaining open, clear communication with our clients. He is a born and bred Rockhampton local, now residing in Yeppoon with his wife Alison and four teenage children.

*Left to Right Brett, Graham and Christine.*

# The QVC Leadership Team

## Lachlan Busby Commercial Manager

Joining the team in late 2024 Lachlan brings regional major project experience across civil, construction, underground mining and manufacturing. He works closely with the leadership team to ensure sound commercial practices and standards are embedded into all aspects of the QVC Group.

Lachlan is passionate about delivering major projects for a quickly advancing regional market in Central Queensland, whilst growing the capability within the QVC Group to deliver whatever our clients need. Now living in Yeppoon with his young family Lachlan has spent his career throughout Central Queensland.

## Nikki Bella Quality & Operations Manager

With more than 15 years of experience in geotechnical testing and project management, Nikki is well respected for her knowledge and broad skillset. Nikki heads up our material testing, quality control, production, and project delivery.

Nikki joined QVC Group in late 2023 with senior experience across many major projects including; Wiggins Island, Curtis Island, ASMTI Shoalwater Bay, Greenvale, Saraji Creek Diversion, and multiple mine upgrades. Nikki established herself as a respected Project and Works Coordinator for projects across the country, including Darwin, Townsville Mackay and Central Queensland.

# Our Pledge

## ENVIRONMENT

The team at QVC operations takes their commitment to minimising the environmental impact of our activities and products very seriously. We meticulously adhere to environmental regulations and industry best practice policies to uphold responsible ecological management, promote sustainability, and protect the natural environment.

Additionally, we utilise a customised Site Management Plan and a comprehensive Weed & Pest Management Control Plan throughout our operations.

QVC Operations is a constantly evolving business, frequently improving on current and typical quarrying activities for a more sustainable and environmentally friendly operation.

## SAFETY

Safety is paramount to us. Although we are committed to consistently providing services and high-quality products that meet and exceed customer expectations and project requirements, our foremost priority is ensuring a safe and healthy workplace for our team.

We firmly believe that no job is so urgent that it cannot be carried out in a manner that prioritises safety.

QVC Operations implements a stringent Production Quality Management Plan to guarantee the quality of our operations' material output. This plan oversees and improves the performance of extraction, crushing, wash plant, screening, stockpiling, and haulage operations in a safe and environmentally friendly manner. These comprehensive and coordinated quality control practices have been designed to ensure compliance with customer specifications and our company requirements.

Moreover, we uphold high product testing standards by outsourcing the tasks to NATA-accredited laboratories. This allows us to have confidence in the accuracy and reliability of our product testing results.
